

American Shorthair

The American Shorthair is medium-to-large in size. The body should be well-knit and powerful with well developed chest and hindquarters, especially in the males. The head is broad, with cheeks especially well developed in studs. The nose and face are medium short, with eyes and ears set wide apart. The muzzle should present a squarish aspect, but should not be foreshortened.

HEAD	Medium size, broad and rounded. Rounded skull. Cheeks especially well-developed in studs. Muzzle squarish and medium-short.
EARS	Medium, not too large at base. Wide-set. Rounded at tips. Not unduly open at base. External ear with short hair. Medium furnishings.
EYES	Rounded and medium to large in size. Wide set, at a slight angle. Rounded aperture. Colour to conform with coat colour
NOSE	Medium short. Profile with a modified stop.
CHIN	Strong, firm, deep and squared.
NECK	Medium short. In proportion to body, neither too short and thick nor too long and thin.
BODY	Medium to large. Medium length. Medium boning. Rectangular shape, rather than slender, with broad chest, especially in males. Well-rounded and in proportion; males larger than females. Well-knit and powerful musculature.
LEGS	Medium length with medium boning. Sturdy musculature.
PAWS	Medium size and rounded.
TAIL	Thick at base, tapering from a well-rounded rump to a rounded tip. The taper is slight, neither blunt nor pointed. Carried almost level with back. Medium size and length.
COAT	Short and even. Natural protective appearance, lustrous. Close lying.
